

ACI-NA
Operations and Technical Affairs,
Facilities and Maintenance
Working Group
Association Cross Collaboration

Presented By - ACI-NA Facilities and Maintenance Working Group Co-Chairs

Mr. Eddie Clayson, Director of Airport Maintenance, SLC

Mr. Joseph T. Mahaz, Founder and Senior Advisor, EDI an Arora Company

October 15, 2019

Who Are We

- The Facilities & Maintenance Working Group (FMWG) is a sub-committee of the Operations and Technical Affairs Committee of ACI-NA that promotes and establishes maintenance ideas and innovations for airports to be maintained more efficiently and economically.

Our Purpose for Today

- The ACI-NA FMWG has a Strategic Initiative to Enhance Committee Networking and Information Exchange, including Cross-Committee and Cross-Association Collaboration.

- We would like to formulate a stronger collaboration with the IFMA Airport Council and expand on previous IFMA/ACI-NA joint ventures such as the Airport Asset Management Benchmarking Survey.

Existing FMWG Initiatives

- Quarterly Webinars
- Knowledge Transfer Day
- ACRP Problem Statement Development

Recommendations

→ How do we achieve a stronger partnership?

→ Thank You
